Directions to Omega Diagnostics, LLC
One Saint Mary Place
Shreveport, LA

Our laboratory is located within the Christus Schumpert main hospital. The main laboratory entrance is on the first floor. The easiest way to find us is to park in the visitor's parking lot located across the street from the ER entrance. If there are no spaces available, you will have to park in the parking garage. Enter the hospital through the ER entrance and walk straight down that hall. The entrance to the laboratory will be on your left. It is labeled "Laboratory." Tell the front desk receptionist that you are a student completing your mycology rotation at our lab. Your contact is Karrie Hovis.

If you have any questions, feel free to contact me at 681-6872.

Thanks,
Karrie Hovis
