## **Reference Guide Book**

Codes are sorted Numerically by ICD-9

## Coding Tips

- “E” codes will now begin with either a “V”, “W”, “X”, or “Y” alpha pre-fix. You will find these codes in Chapter 20.
- “V” codes will now begin with the alpha pre-fix “Z”. You will find these codes in Chapter 21.
- Never code directly from the default code listed in the Alphabetical Index. Always confirm your diagnosis code in the Tabular List.
- Please be aware that this reference guide book only consists of the most commonly used codes for Cardiology, Gastrointestinal, OB/GYN, and General diagnosis codes. Please refer to your ICD-10-CM code book for further detailed ICD-10 codes since it is essential to use both the Alphabetical Index and Tabular List when coding.
- A complete set of the Official Guidelines for Coding and Reporting for ICD-10-CM is located at the beginning of your ICD-10-CM code book.
- If you need any help or have any coding questions and wish to speak with a certified coder, please feel free to call the billing office at 318-841-9526.
